1. (1) This Act may be called the Constitution (Amendment) Act, 2011.

Short title and
commence-
ment.

(2) It shall come into force at once.

VIA.

"CHAPTER VIA.—SERVICES UNDER THE STATE GOVERNMENT

237A. (1) Subject to provisions of article 315, all appointments of persons to any service in any class or post in a State shall be made by the Governor of that State.

Appointment
of persons to
serve under
State
Government.

(2) The conditions of service of persons appointed under clause (1) shall be such as the legislature of the State may by law determine.

3. Article 312 shall be omitted.

Omission of
article 312.

STATEMENT OF OBJECTS AND REASONS

The present structure of bureaucracy at the Union and State level is a legacy of the colonial era. At that time the administration was highly centralised and the officers appointed by the Central Government were given top jobs in the States with a view to maximize revenue collection and keep a tab on the happenings within the provinces. We chose to continue with this system even after independence, principally because continuity in administration was considered to be necessary for a country which had just emerged from long years of foreign rule. It was also felt that retaining such services would help preserve unity and integrity of the country. But now, the nature of administration has changed from revenue collection to welfare of the citizens. When we are moving towards decentralized Government rather than centralized Government, particularly after the seventy-third and seventy-fourth amendment of the Constitution taking democracy to the grass-root level and when federalism is the order of the day, we need to review the necessity of having All India Services, in particular, the Indian Administrative Service and the Indian Police Service. In fact the very idea of officers appointed by the Union Government taking senior positions in States runs contrary to the federal structure of our nation.

The State Government should have the power to appoint and regulate the conditions of service of all officers serving under them. It will not only allow appointment of such officers who are better conversant with the ground realities existing in a State and so, in a better position to formulate and implement development strategies, but the officers can also be better groomed to the needs of the State. All over world, the focus is now shifting towards specialist administrators, *i.e.*, administrators who are specialists in their respective area of operation, as a means to ensure faster pace of development. This purpose would also be served if the States are given greater autonomy in the appointment of their officers.

Therefore, an amendment is proposed in the Constitution to ensure that State Governments are able to appoint officers at all levels within the State.

BILL NO. 51 OF 2011

A Bill further to amend the Land Acquisition Act, 1894.

BE it enacted by Parliament in the Sixty-second Year of the Republic of India as follows:—

1. This Act may be called the Land Acquisition (Amendment) Act, 2011.

Short title.

1 of 1894.

2. After section 44B of the Land Acquisition Act, 1894, the following section shall be inserted, namely:—

Insertion of new section 44C.

"44C. Notwithstanding anything contained in this Act, no land belonging to any place of worship shall be acquired by the appropriate Government for any private company or Government Company or for any public purpose except for the purpose of constructing houses for persons living below poverty line.

Restriction as to acquisition of land belonging to any place of worship by the appropriate Government.

Explanation.—For the purpose of this section, 'persons living below poverty line' means persons who may be declared as such by the appropriate Government from time to time."

STATEMENT OF OBJECTS AND REASONS

'Land' is the most precious resource of the country and the Land Acquisition Act enables the Government to acquire land for public purposes.

In yester years, philanthropists, patrons, kings, Governments and other ruling classes used to donate land to temples, mosques and churches generously for development of their communities and also to help poor people belonging to the respective communities.

Now, the land belonging to temples, mosques and churches can be acquired by Government, after following due process of law, for public purposes as prescribed under the Land Acquisition Act, 1894. But, it has been often seen that Government is acquiring land belonging to temples, mosques and churches for private companies in the pretext of 'public purpose'. This is clearly against the spirit of the Act and also defeats the objective with which philanthropists, patrons, kings, etc., donated land to temples, mosques and churches.

The objective of the Bill is to amend the existing Land Acquisition Act, 1894, by inserting a new section 44C to provide guidance to the Governments and also mandate that Governments can acquire land belonging to temple, mosque or church only for housing purpose for people belonging to families living below poverty line.

Hence this Bill.

3. Whoever,—

(i) causes any injury or kill or attempt to kill any animal or bird protected as National Assets under this Act; or

(ii) causes to pollute or damage river Ganga in any manner; or

(iii) mutilates, burns or shows disrespect to the National Book,

shall be punished with imprisonment for a term of five years and shall also be liable to pay a fine not exceeding rupees one lakh.

Power to make rules.

4. (1) The Central Government may, by notification in the Official Gazette, make rules for carrying out the purposes of the Act.

(2) Every rule made under this section shall be laid, as soon as may be after it is made, before each House of Parliament, while it is in session, for a total period of thirty days which may be comprised in one session or in two or more successive sessions, and if, before the expiry of the session immediately following the session or the successive sessions aforesaid, both Houses agree in making any modification in the rule or both the Houses agree that the rule should not be made, the rule shall thereafter have effect only in such modified form or be of no effect, as the case may be; so, however, that any such modification or annulment shall be without prejudice to the validity of anything previously done under that rule.

STATEMENT OF OBJECTS AND REASONS

Since time immemorial, certain things in our country have been recognized as sacred and national assets. Steps have been taken by successive Government to preserve and protect them and to give them their due place in events of national importance. Infact, the Project Tiger was started to protect the tiger from extinction, as tiger was considered as the national animal. The Ganga Action Plan was started to cleanse and protect river Ganga. Similarly, our national bird Peacock is on the verge of extinction, and therefore needs immediate steps to protect it. Moreover, replicas of Peacock, Lotus and Tiger are used in National events and functions to showcase our national pride in having them in our country. But cases of showing disrespect to these symbols of national pride by causing injury to them or killing them or damaging or by acts of polluting have increased. If we are to protect our national assets, we have to take stringent action to ensure its safety and preservation.

The Bill seeks to preserve and protect these national assets.

Hence this Bill.

- Insertion of new section 20Q.
- Central Government to provide funds for development of all monuments and archaeological sites.

STATEMENT OF OBJECTS AND REASONS

The Ancient Monuments and Archaeological Sites and Remains Act, 1958 was amended in 2010 which came as a shock to thousands of people owning properties near monuments and sites covered under the Act. With the coming into force of the Act, thousands of people can no longer construct or repair or renovate their properties because of the restriction imposed by the Act on any such activity within the stipulated distance from the monuments.

Several public projects have come to standstill or have been disallowed due to restrictions imposed under the Act. On the one hand public are suffering that they are not allowed to undertake any construction activity and on the other hand public works have been stalled.

There are thousands of monuments in our country which are lying in a dilapidated condition. They are misused by anti-social elements for illegal activities. A situation has arisen that these monuments are neither improved nor used for any purpose nor any construction activity is allowed near the monuments. It is accordingly proposed to renovate/upgrade facilities in these sites so as to exploit its tourism potential. The Bill seeks to amend the Act, with a view to mitigate the difficulties faced by the people, it is proposed to relax the restrictions imposed under the Act.

Hence this Bill.

Provided that nothing contained in this section shall apply to a suit or other proceedings pending in the High Court or the Supreme Court, as the case may be."

STATEMENT OF OBJECTS AND REASONS

The practice of female foeticide is prevalent in many parts of our country. According to estimates, foetal sex determination and selective abortion of female foetus has grown into a huge industry with doctors making at least Rs. 1,000 crore by conducting illegal sex-selection procedures in India. The 2001 census revealed a decrease in child sex ratio from 945 in 1991 to 927 in 2001. The latest census in 2011 shows that the child sex ratio has dropped to 914 females against 1000 male—the lowest since independence. Also, there is ample evidence to suggest that this practice of sex determination and female foeticide has grown among the upper and middle class of the society and has moved to cities and towns. An estimated 15 million girls were wiped out—simply not born—in India over the last decade due to sex selection and female foeticide. And not surprisingly, India ranks 113th out of 135 countries in the World Economic Forum's Global Gender Gap Index for 2011.

The Pre-conception and Pre-natal Diagnostic Techniques (Prohibition of Sex Selection) Act was enacted in 1994 to prohibit sex selection, before or after conception, and for preventing the misuse of pre-natal diagnostic techniques for sex determination. However, ineffective implementation of this Act has led to minimum number of convictions and dented the fight against female foeticide. In 2001, seven years after legislation, the Supreme Court directed State Governments to enforce the provisions of the aforesaid Act effectively.

Therefore, it is necessary to establish Fast Track Courts to quickly and efficiently deliver justice and convict those who commit the horrendous crime of female foeticide.

Hence this Bill.

STATEMENT OF OBJECTS AND REASONS

India is a large country having vast tourism potential. However, it has not been exploited fully to the advantage of the country. Every year, close to 20 million foreign tourists visit our country from all over the world, while the volume of domestic tourists is about 740 million.

It is a known fact that the foreign tourists face hardship and suffer unpleasant experiences while they travel in our country. They get cheated by middlemen, touts and others for arranging reservations for journey, hotels, etc. Many of them carry a bad impression about our country on their return. As a result, prospective tourists are discouraged from visiting our country. Consequently there is a heavy loss of foreign exchange to the country.

India is a vast country having different cultures and traditions and various languages. People of one region are not aware of culture and tradition of people belonging to the other regions. As such they face a lot of difficulties while visiting important tourist places. Moreover, the tourist centres in many places require adequate facilities and the States are not in a position to spend the money. Security to foreign tourists also has to be taken into consideration. Therefore, it is proposed to set up a Tourism Promotion Corporation of India with a view to promote tourism in the country and attract foreign tourists in large numbers. It is also proposed to provide that the Corporation shall function with a professional approach in order to promote tourism.

Hence this Bill.

NEW DELHI;

NISHIKANT DUBEY

8. The Central Government shall cause to be placed before both Houses of Parliament an annual report giving full account of the activities and performance of the Board.

Power to
make rules.

9. (1) The Central Government may, by notification in the Official Gazette, make rules to carry out the provisions of this Act.

(2) Every rule made under this Act shall be laid as soon as may be after it is made, before each House of Parliament, while it is in session, for a total period of thirty days which may be comprised in one session or in two or more successive sessions, and if, before the expiry of the session immediately following the session or the successive sessions aforesaid, both Houses agree in making any modification in the rule or both the Houses agree that the rule should not be made, the rule shall thereafter have effect only in such modified form or be of no effect, as the case may be; so, however, that any such modification or annulment shall be without prejudice to the validity of anything previously done under that rule.

STATEMENT OF OBJECTS AND REASONS

The condition of a large number of pensioners in India is miserable, sad and frustrating. They deserve a more decent treatment from the society. They are pensioners because they served the society once.

It is, therefore, the responsibility of the society to treat them with respect and try to solve this problems to the extent possible.

This Bill seeks to provide for payment of minimum pension to every pensioner including those who have worked in unorganized sector and private sector. Since the provision of minimum pension is also being extended to persons who have worked in unorganized sector and private sector, it will provide social security for a substantial chunk of the population. Though it would not solve all the problems of the pensioners, it would provide them some kind of relief. It would also give them a sense of satisfaction that their problem got a sympathetic consideration.

Hence this Bill.

FINANCIAL MEMORANDUM

Clause 3 of the Bill provides for constitution of a National Pension Board. Clause 4 provides that the Board shall ensure that every pensioner is paid a minimum pension under the provisions of the Act. Clause 6 provides for constitution of a National Pension Fund. Clause 7 provides for release of funds to the National Pension Board by the Central Government. The Bill, therefore, if enacted, would involve expenditure from the Consolidated Fund of India. It is estimated that a recurring expenditure of rupees thirty thousand crore will be involved per annum.

A non-recurring expenditure of rupees fifty thousand crore is also likely to be involved.

MEMORANDUM REGARDING DELEGATED LEGISLATION

Clause 9 of the Bill empowers the Central Government to make rules for carrying out the purposes of the Bill.

As the rules will relate to matters of detail only, the delegation of legislative power is of a normal character.

BILL NO. 95 OF 2011

A Bill further to amend the Constitution of India.

BE it enacted by Parliament in the Sixty-second Year of the Republic of India as follows:—

Short title.

1. This Act may be called the Constitution (Amendment) Act, 2011.

Amendment
of the Eighth
Schedule.

2. In the Eighth Schedule to the Constitution,—

(i) entries 3 to 6 shall be renumbered as entries 4 to 7, respectively, and before entry 4 as so renumbered, the following entry shall be inserted, namely:—

"3. Bhojpuri.";

(ii) after entry 7 as so renumbered, the following entry shall be inserted, namely:—

"8. Ho.";

(iii) entries 7 to 14 shall be renumbered as entries 9 to 16, respectively, and after entry 16 as so renumbered, the following entry shall be inserted, namely:—

"17. Oraon.";

(iv) entries 15 to 21 shall be renumbered as entries 18 to 24, respectively, and after entry 24 as so renumbered, the following entry shall be inserted, namely:—

"25. Tulu.";

(v) entry 22 shall be renumbered as entry 26.

STATEMENT OF OBJECTS AND REASONS

The Eighth Schedule to the Constitution includes twenty-two languages as national languages which are widely spoken and written by our people. It is presumed that it is around these languages that the education, culture and intellectual pursuits of our people grow and flourish.

But it is unfortunate that the "Bhojpuri" language, which is spoken and written by millions of people does not find a place in the Eighth Schedule. Bhojpuri is the mother tongue of a large number of people in several parts of Bihar, Jharkhand and Eastern Uttar Pradesh and is spoken in other parts of the world too.

Similarly *Oraon* is a popular language of Jharkhand which is spoken not only in that State but also in West Bengal, Orissa and Chhattisgarh by millions of tribal people. This language has a rich tradition dating back to thousands of years. Similarly, *Ho* is one of the languages of Santhali people of Jharkhand whereas *Tulu* is spoken by a large number of people in Udupi and South Canara Districts of Karnataka. All of these languages fulfil all the criteria for inclusion in the Eighth Schedule to the Constitution.

For the promotion of literacy and the development of these languages, it is necessary that they are included in the Eighth Schedule to the Constitution.

STATEMENT OF OBJECTS AND REASONS

Poor people cannot afford treatment in hospitals as it has become a costly affair. Huge crowds in Government hospitals discourage elderly, physically challenged persons and women from taking treatment there. As a result, they are left uncared for. Even in Government hospitals, they have to spend money on purchasing medicines, etc.

India, being a welfare State, care has to be taken by the Government of the under privileged sections of the society. It is proposed to provide that persons living below poverty line will be allowed to take free treatment in hospitals including private hospitals and there is also a provision for their life insurance.

This, it is hoped, will mitigate the hardship of the poor people to some extent.

Hence this Bill.

Clause 4 provides for issuance of health cards to all persons living below poverty line to enable them to take treatment in hospitals. Clause 10 provides for reimbursement of expenses by the Central Government to the hospitals concerned. There is also a provision for life insurance of the cardholder under clause 11.

The Bill, therefore, if enacted, would involve expenditure from the Consolidated Fund of India. It is likely to involve a recurring expenditure of about rupees five thousand crore per annum.

A non-recurring expenditure of about rupees one thousand crore will also be involved for issuing health cards.

MEMORANDUM REGARDING DELEGATED LEGISLATION

Clause 13 of the Bill empowers the Central Government to make rules for carrying out the purposes of the Bill.

No person to carry on any industry or operation within one hundred metres from any river.

Explanation.—For the purpose of this Chapter, person includes a company registered under the Companies Act, 1956.”.

1 of 1956.

STATEMENT OF OBJECTS AND REASONS

Despite enactment of the Environment Protection Act, 1986, exploitation of our natural resources are on the rampant. The pollution of rivers is on the rise. Already with the ever increasing population, we are unable to provide facilities like drinking water from the depleting water levels in the rivers.

Moreover with the lifting of sand from riverbanks, rivers are losing their foreshore and erosion has been intensified. Therefore, a distance limit should be prescribed to prohibit handling of sand from the riverbanks in order to protect our natural resources and rivers.

BILL NO. 2 OF 2012

A Bill further to amend the Consumer Protection Act, 1986.

BE it enacted by Parliament in the Sixty-third Year of the Republic of India as follows:—

Short title and
commencement.

1. (1) This Act may be called the Consumer Protection (Amendment) Act, 2012.

(2) It shall come into force with immediate effect.

Amendment of
section 16.

2. In section 16 of the Consumer Protection Act, 1986,—

68 of 1986.

(i) in clause (b) of sub-section (1), in the *Explanation* to the first proviso, after the words “or any tribunal at equivalent level:”, the words “or persons having ten years of continuous service as member of a District forum:” shall be added; and

(ii) in sub-section (3), in the first proviso, for the words “eligible for re-appointment for another term of five years or up to the age of sixty-seven years, whichever is earlier,” the words “eligible for re-appointment up to the age of sixty-seven years,” shall be substituted.

STATEMENT OF OBJECTS AND REASONS

The objective behind enactment of the Consumer Protection Act, 1986 was to provide better protection to the interests of consumers, in relation to price, quality, quantity, purity and standard of consumer goods.

For this purpose, the Act envisages Consumer Protection Councils at the State and Central level and Consumer Disputes Redressal Forum at district level. Section 16 of the Act allows constitution of the State Commission consisting of President and two members. Section 16(3) deals with eligibility criteria for appointment and re-appointment of members and provides that a member can be re-appointed for only once.

The members of the State Commission, after rendering five or ten years of service, gain immense experience and expertise on the various aspects of the Consumer Protection Act, 1986 and after rendering such service they are in a better position to contribute towards achieving the objectives of the Act. They may also contribute immensely for the speedy disposal of cases, since the Act envisages disposal of cases within ninety days. If one looks at existing scenario, members are in extremely difficult condition, due to piling up of cases and constant appointment of fresh persons as members and also in view of taking time by them in understanding the nuances of the Act, to achieve the goals of the Act. There is no doubt that members of the State Commission with five years of experience are an asset to the Commission and ensure that the Act is implemented in its true spirit. But, if one looks at their career, it comes to a standstill the moment they come out of the Commission, since Act allows for re-appointment only once. After rendering ten years of service, they can neither be appointed for another term nor their service is treated as judicial experience. As a result, they are not considered for appointment as judges or members of other tribunals or Commissions.

In view of the above, it is proposed to allow the members to remove the restriction of terms and the service rendered by them to be treated as judicial experience or judicial service and they be treated at par with judicial officers for their career progression and recognition of their service and taking maximum out of their potential for the benefit of consumers.

Hence this Bill.

L. RAJAGOPAL

BILL NO. 13 OF 2012

A Bill further to amend the Constitution of India

BE it enacted by Parliament in the Sixty-third Year of the Republic of India as follows:—

Short title.

1. This Act may be called the Constitution (Amendment) Act, 2012.

Amendment
of article 85.

2. In article 85 of the Constitution, in clause (1), the following proviso shall be added at the end, namely:—

"Provided that the number of sittings of each House of Parliament in all sessions in a calendar year shall not be less than one hundred and thirty days."

Amendment
of article 100.

3. In article 100 of the Constitution, in clause (3), for the words "one-tenth" the words "one-third" shall be substituted.

STATEMENT OF OBJECTS AND REASONS

Article 100 of the Constitution provides, *inter-alia*, that the quorum to constitute a meeting of either House of Parliament shall be one-tenth of the total number of members of the House. At present, the number of members to be present in Lok Sabha to constitute quorum is fifty-five including the Chairperson. However, it has been observed that on several occasions, the required minimum number of members is not present in the House even when some serious issue is being discussed. This trend is disheartening and will erode public trust in the institution.

The low attendance of members in the House also creates an impression in the minds of general public that members do not discuss the issues in all its seriousness. Sometimes, the proceedings of the House continue without quorum as no member raises the question of quorum in such situation. Therefore, there is an urgent need to amend the Constitution with a view to increase the minimum number of members in the House that constitutes a quorum from one-tenth to one-third of the total membership of the House so that attendance of minimum required number of members in the House can be ensured till the time the House is adjourned for the day. The falling number of sittings of the House in a calendar year is also a matter of concern and requires to be mentioned clearly in the Constitution. The Bill seeks to amend the Constitution with a view to —

(i) increase the minimum number of members in the House that constitutes a quorum from one-tenth to one-third of the total membership of the House; and

(ii) provide that the number of sittings of each House of Parliament in all sessions in a calendar year shall be not less than one hundred and thirty days.

BILL NO. 49 OF 2012

A Bill further to amend the Food Safety and Standards Act, 2006.

BE it enacted by Parliament in the Sixty-third Year of the Republic of India as follows:—

Short title and
commencement.

1. (1) This Act may be called the Food Safety and Standards (Amendment) Act, 2012.

(2) It shall come into force on such date, as the Central Government may, by notification in the Official Gazette, appoint.

Insertion of
new sections
59A and 59B.

2. After section 59 of the Food Safety and Standards Act, 2006, the following sections shall be inserted, namely:—

34 of 2006.

Special Penal
Provision for
manufacturing,
distributing and
selling of
synthetic milk.

“59A. (1) Notwithstanding anything contained in this Act, any person who, whether by himself or by any other person on his behalf, manufactures, distributes or sells synthetic milk shall be punished with imprisonment for a term which shall not be less than five years but which may extend to ten years and also with fine which may extend to five lakh rupees or with both.

(2) If any person, after having been previously convicted of an offence punishable under sub-section (1), subsequently commits and is convicted of the same offence, he shall be punished with death.

(3) Where an offence under sub-section (1) is committed by any person acting as the agent or servant of another person, or being otherwise subject to the supervision or instructions of another person for the purposes of any employment in the course of which the offence was committed, that other person shall, without prejudice to the liability of first mentioned person, be liable under this section in the same manner and to the same extent as if he had personally committed the offence if it is proved that the act which constituted the offence was committed with his consent or connivance or that it was attributable to any neglect on his part.

(4) Where an offence under sub-section (1) committed by a body corporate is proved to have been committed with the consent or connivance of, or to be attributable to any neglect on the part of any Director, Manager, Secretary or other similar officer of the body corporate, or any person who was purporting to act in any such capacity, he, as well as the body corporate shall be guilty of the offence and shall be liable to be proceeded against and punished accordingly.

Explanation.—For the purpose of this section, “synthetic milk” means milk in liquid or powder form manufactured by mixing detergent powder, urea, edible oils, fats, whitening material or any other materials which is toxic for human consumption.

59B. Notwithstanding anything in this Act or the Code of Criminal Procedure, 1973, an offence committed under section 59A shall be cognizable and non-bailable.

STATEMENT OF OBJECTS AND REASONS

These days print media is full of reports about large scale sale of synthetic milk in various parts of the country particularly in the States of Uttar Pradesh, Rajasthan, Haryana, Gujarat and even in the National Capital Territory of Delhi. The synthetic milk is generally produced from detergents, edible oils, fats, urea etc. and mixed with small quantity of natural milk and then passed on to the unsuspecting consumers as natural milk. This has endangered the health particularly those of the children because consumption of synthetic milk can lead to various dreaded diseases including cancer and kidney or lung failure. This business has become so lucrative that people have started producing it on a very large scale. Even some reputed milk companies are involved in this for making quick money. The Central Government and the State Governments are unable to cope with this menace in the absence of any stringent law to check it. It is felt that deterrent punishment has to be provided for those who are passing on this poison in the form of synthetic milk to unsuspecting consumers.

Even though the Food Safety and Standards Act, 2006 has been passed with a view to prevent adulteration of food items which includes milk, the punishment provided for in the Act is not deterrent for those who indulge in adulteration of milk with toxic materials which in some cases result in death of unsuspecting consumers.

Therefore, it is proposed in the Bill to make the punishment more stringent so that it acts as a deterrent.

STATEMENT OF OBJECTS AND REASONS

India resides in villages and eighty-five per cent. of its rural population earns its livelihood from agriculture. There are cultivators, orchard owners, poultry owners, agricultural workers and home based workers in the rural areas. Their number runs into crores. However, their wages and income are meagre and many of them do not get employment throughout the year. These rural labourers also become an easy prey to the debt trap of the landlords and moneylenders who force them to become bonded labourers. Most of them remain very poor throughout their lives and live in distress for generations. In a welfare State like ours, there are no welfare schemes or funds for these helpless rural labourers whereas in the industrial sector there are Labour Welfare Boards and cess is levied and collected through legislative measures in order to provide them various amenities including housing, education and medical care. But the rural labourers are unorganized, poverty stricken and neglected, even by the State.

It is, therefore, necessary that the deteriorating plight of rural workers be felt at national level and the Central Government should establish a Rural Labour Welfare Fund for financing adequately and systematically the welfare measures to be carried out for the rural and agricultural labour throughout the country so as to achieve the goals of a welfare State in its true sense.

Hence this Bill.

FINANCIAL MEMORANDUM

Clause 3 of the Bill provides for the establishment of the Rural Labour Welfare Fund. Clause 5 provides for the constitution of Advisory Committees. Clause 6 provides for constitution of a Central Advisory Committee. Clause 7 provides for appointment of Rural Labour Welfare Commissioners, Inspectors and officers and staff for carrying out the purposes of this Bill. The Bill, therefore, if enacted, will involve expenditure from the Consolidated Fund of India but it is not possible at this stage to give the precise details of the expenditure that would be involved. It is, however, estimated that it will involve a recurring expenditure of about rupees two hundred crore per annum.

It will also involve a non-recurring expenditure of about rupees sixty lakh.

MEMORANDUM REGARDING DELEGATED LEGISLATION

Clause 9 of the Bill provides that the Central Government may make rules for carrying out the purposes of this Bill. The delegation of legislative power will relate to matters of detail only and is of a normal character.

BILL NO. 36 OF 2012

A Bill further to amend the Constitution (Scheduled Castes) Order, 1950.

BE it enacted by Parliament in the Sixty-third Year of the Republic of India as follows:—

Short title.

1. This Act may be called the Constitution (Scheduled Castes) Order (Amendment) Act, 2012.

Amendment
of the
Schedule.

2. In the Schedule to the Constitution (Scheduled Castes) Order, 1950, in PART VIA.— C.O. 19
Jharkhand,—

(i) after entry 7, the following entry shall be inserted, namely:—

"7A. Dandachhatra Majhi"; and

(ii) after entry 16, the following entry shall be inserted, namely:—

"16A. Mal, Malla Kshatriya".

STATEMENT OF OBJECTS AND REASONS

Jharkhand is predominantly a tribal State. However, it has also a number of castes which are equally backward in all respects. There are a large number of people belonging to Mal, Malla Kshatriya and Dandachhatra Majhi castes who are living in the State but have not yet been included in the list of Scheduled Castes of the State of Jharkhand even though their social and economic condition is worse than many other castes which are included in the list of Scheduled Castes. The people belonging to these communities are getting the benefits of reservation in the States of Orissa and West Bengal and they ought to be given the reservation benefit in Jharkhand also. The State Government of Jharkhand submitted request to the Central Government for inclusion of these communities in the list of Scheduled Castes way back in the year 2005 but the Central Government have not taken any action so far despite the fact that these castes fulfil all the criteria required for inclusion in the list of Scheduled Castes.

Therefore, these castes, namely 'Mal, Malla Kshatriya and Dandachhatra Majhi' deserve to be included in the Constitution (Scheduled Castes) Order, 1950 in respect of the State of Jharkhand.

The Bill seeks to achieve the above objective.

BILL NO. 64 OF 2012

A Bill further to amend the National Highways Act, 1956.

BE it enacted by Parliament in the Sixty-third Year of the Republic of India as follows:—

Short title.

1. This Act may be called the National Highways (Amendment) Act, 2012.

Substitution
of new
section for
section 5.

2. For section 5 of the National Highways Act, 1956, the following section shall be substituted, namely:—

Responsibility
for
development,
maintenance
and repairing
of national
highways and
provision of
certain
facilities, etc.

"5. (1) Save as otherwise provided in this Act, it shall be the responsibility of the State Government—

(i) to develop, maintain and repair from time to time the portion of the national highways situated in that State subject to such conditions, if any, as the Central Government may, by notification in the Official Gazette, specify;

(ii) to provide and maintain public utility services such as drinking water facilities, toilets, urinals equipped with flush system and public telephone booths on national highways at such places within the State, as it may deem appropriate;

48 of 1956.

(iii) to provide ambulance services on national highways at such strategic locations within the State, as it may deem appropriate, for the purpose of facilitating immediate medical assistance to the victims of road accidents; and

(iv) to provide tow away services to any destination for accidental or breakdown vehicles on national highways situated within the State.

(2) The Central Government shall, after due appropriation made by Parliament in this behalf by law, provide requisite funds to the State Governments for the purposes of this section.

STATEMENT OF OBJECTS AND REASONS

The National Highways and roads are not only essential for commuting from one place to another but in fact they are the lifelines of our economy. Most of essential commodities and industrial products are transported from one place to another through road transport. Thus roads and road transport system is an important cog in the wheel of our economy. But unfortunately the national highways and other such roads are in a pitiable condition. Potholes are visible everywhere which damage vehicles plying on them. Driving vehicles on such damaged roads lead to more consumption and wastage of fuel, which is already a scarce commodity, not only in our country but throughout the world. Thus, it is necessary to maintain and repair the highways and roads periodically to keep them in good condition.

It has also been observed that victims of road accidents, particularly on national highways, do not get timely medical assistance. If adequate ambulance service is provided on highways, victims can be shifted to the nearest medical centre or hospital in time and hence precious lives can be saved. Similarly, vehicles breaking down on roads cause traffic disruptions if they are not removed on time. In order to tow away such vehicles, crane service is necessary. Further, the public utility services like toilets, telephone booths, ATM, etc. have also become a necessity to be provided on roads and highways.

The National Highways Act, 1956 was enacted with a view to provide for the declaration of certain highways to be national highways and for matters connected therewith. However, there is no mention of certain facilities like drinking water, toilets, urinals, public telephone booths to be provided by the Government on national highways in this Act. Moreover, the State Government concerned should also play a role of partner in development, maintenance and repairing of national highways. Therefore, the Bill seeks to amend the National Highways Act, 1956 with a view to achieve aforesaid objectives.

Hence this Bill.

STATEMENT OF OBJECTS AND REASONS

Nowadays we find that in every movie, television serial, telefilm and even drama, consumption of alcoholic liquor is glorified to the maximum extent possible. Every character including the hero, heroine or the villain are shown taking liquor. If someone is tired or worried or happy, he is shown taking alcohol. In fact, on every occasion, alcohol is portrayed as an antidote to all kinds of sorrows, worries or even tiredness. Everyone is ready to prepare and offer a drink to others as if it is a refreshing tonic which relieves a person from all worries, sorrows and miseries. This glorification of liquor is unabated inspite of the fact that medical science has proved beyond doubt that consumption of liquor is very harmful to our health as it damages the liver and other vital organs of the body. After consuming liquor, a person no longer remains sensible and may commit worst crimes.

The glorification of consumption of liquor in movies and television programmes has started showing its impact on the society and consumption of liquor has become a status symbol in the society. It has become an essential component of the menu in parties, marriages and birthday celebrations and such other social gatherings. As a result, more and more people are becoming alcoholic, families are getting ruined and heinous crimes are being committed in the society.

Therefore, in order to get rid of this evil, the glorification of liquor in popular electronic media has to be prohibited which will have far reaching implications for our society. After all a beginning has to be done to cleanse the society.

Hence this Bill.

They are not paid even minimum wages which they deserve by virtue of their work. The condition of these workers is worse than the contract labourers. In the circumstances, provision of certain facilities to these workers during their service as well as in their old age is highly desirable.

A non-recurring expenditure of about rupees one hundred crore per annum is also likely to be involved.

BILL NO. 70 OF 2012

A Bill further to amend the Central Universities Act, 2009.

BE it enacted by Parliament in the Sixty-third Year of the Republic of India as follows:—

1. This Act may be called the Central Universities (Amendment) Act, 2012.

Short title.

2. In the Central Universities Act, 2009, in section 3, after sub-section (5), the following sub-section shall be inserted, namely:—

Amendment of section 3.

"(5A) Notwithstanding anything in sub-section (5), the headquarter of the Central University of Bihar shall be at Motihari District of the State of Bihar."

STATEMENT OF OBJECTS AND REASONS

The Central Universities Act, 2009 was enacted by Parliament to establish and incorporate universities for teaching and research in various States and to provide for matters connected therewith or incidental thereto. The aforesaid Act provides, *inter alia*, for the establishment of a Central University in the State of Bihar by the name of Central University of Bihar.

The democratically elected Government of the State of Bihar has expressed its desire that the location of the newly proposed university should be in the district of Motihari. Motihari is one of the most prominent cities of northern Bihar. It is the district headquarter of east Champaran district and is well connected by almost all means of transport. The establishment of a Central University in Motihari will go a long way in boosting educational infrastructure in the northern part of Bihar. The Central Government is proposing to establish the new university at Gaya which is already well developed from both educational and other infrastructural point of view. Moreover, it should be the prerogative of the elected Government of a State to choose the site of universities to be established in that State as the State Government is in a better position to know the wishes and aspirations of their people. The imposition of the decision of the Central Government over the opinion of the State Governments also goes against the ethos of federalism. The site of new central universities should be selected only with the concurrence of the respective State Governments.

Hence this Bill.

STATEMENT OF OBJECTS AND REASONS

The main source of income for the people of Lakshadweep comes from fishing and its allied activities. Therefore, the Bill seeks to ensure certain basic measures required for securing the sustainability and development of fisheries and fishermen in Lakshadweep.

The need of a Fishermen Welfare Fund is of prime importance since it aims to help fishermen in payment of debts and also provides certain basic measures which the Government has not taken so far. Speedy and proportionate payment of compensation is also required since the destruction caused by a natural calamity requires to be addressed immediately. The Bill, therefore, seeks to provide speedy payment of compensation which shall ensure that the damage caused is compensated immediately.

BILL NO. 103 OF 2011

A Bill further to amend the Constitution (Scheduled Tribes) Order, 1950

BE it enacted by Parliament in the Sixty-second Year of the Republic of India as follows:—

1. (1) This Act may be called the Constitution (Scheduled Tribes) Order (Amendment) Act, 2011. Short title and commencement.

(2) It shall come into force at once.

C.O. 22 of
1950.

2. In the Schedule to the Constitution (Scheduled Tribes) Order, 1950, in Part IX-
Maharashtra, after entry 47, the following entries shall be added, namely:— Amendment of
the Schedule.

"48. Mahadeo Koli, Tokare Koli

49. Pardeshi, Rajput Bhamta."

STATEMENT OF OBJECTS AND REASONS

There are certain Tribes like Mahadeo Koli, Tokare Koli, Pardeshi and Rajput Bhamta in the State of Maharashtra whose culture, tradition, life style and food habits are akin to other tribes already included in the list of Scheduled Tribes of the State of Maharashtra. The persons belonging to these tribes are still socially, educationally and economically very backward and they do not have any regular avenues of avocation. As such these people have to face lots of hardships. They also do not receive any assistance from the Government. It is unfortunate that people belong to these tribes are not getting Government assistance for their overall development as they do not figure in the list of Scheduled Tribes in the State of Maharashtra. Therefore, these tribes are also needed to be included in the list of Scheduled Tribes in relation to the State of Maharashtra, so that upliftment of these communities can be ensured.

The Bill, therefore, seeks to amend the Constitution (Scheduled Tribes) Order, 1950 with a view to include the above mentioned tribes in the list of Scheduled Tribes in relation to the State of Maharashtra.

Hence this Bill.

The Bill, therefore, if enacted would involve expenditure from the Consolidated Fund of India on account of benefits to be provided to the persons belonging to these communities under continuing schemes meant for development of Scheduled Tribes. At this stage, it is not possible to mention the exact amount which may be incurred on this account. However, it is estimated that a sum of approximately rupees fifty crore is likely to be involved as a recurring expenditure per annum.

A non-recurring expenditure of about rupees twenty crore is also likely to be involved.

STATEMENT OF OBJECTS AND REASONS

Effective legislation addressing the HIV/AIDS epidemic in India is of extreme importance in the context of the prevailing situation in the country. The estimated number of people living with HIV/AIDS as of 2007 are 2.31 million. Of these, an estimated 39% are female and 3.5% are children. These figures significantly under-represent the actual number of people living with AIDS. Many AIDS deaths go unreported in India, due to unprecedented levels of stigma and discrimination. HIV and AIDS affect all segments of India's population, from children to adults, businessmen to homeless people, female sex workers to housewives, and gay men to heterosexuals. However, HIV prevalence among certain groups like sex workers, injecting drug users, truck drivers, migrant workers, gays remain high and is currently around 6 to 8 times that of the general population.

The Bill seeks to provide, *inter alia*, for:—

- (i) protection of the rights of persons affected by HIV.
- (ii) prevention of discrimination to the persons affected by HIV/AIDS in employment, healthcare, education, residence, travel, public/private office, access to services, insurance, etc.
- (iii) maintaining confidentiality of HIV related information.
- (iv) providing access to treatment to the persons suffering from HIV/AIDS without any discrimination in Government hospitals and dispensaries.
- (v) providing social security and launching welfare schemes for persons suffering from HIV/AIDS.

The Bill seeks to achieve the above objectives.

STATEMENT OF OBJECTS AND REASONS

Human trafficking is a crime against humanity. It involves an act of recruiting, transporting, harbouring or receiving a person through use of force, coercion or such other means for the purpose of exploiting them. Every year, thousands of men, women and children fall into the hands of human traffickers. The demand for workers abroad are steadily increasing. Many workers migrate illegally every year as the procedure for legal migration is very cumbersome and expensive. The allurements of good life abroad often lead people to fall into the booby trap of human traffickers.

Indian workers who migrate legally also face many problems like non-payment or delay in payment of wages, harsh working and inhuman living conditions, retention of passport by owner, cheating by intermediaries, incidents of physical abuse and sexual exploitation, etc. In most of the countries access to legal recourse is denied to such workers. Moreover, in some countries legal recourse is so expensive that in most cases employees are not able to afford such options.

United Nations convention against Transnational Organized Crime (UNTOC) and the protocols thereto, assists States to implement the protocol to prevent, suppress and punish trafficking. The protocol requires States to implement the provisions of the protocol by amending their respective domestic laws. In India, trafficking of human beings are taking place in the guise of recruitment agencies. Therefore, it is an urgent necessity to bring the present legislation.

The Bill, accordingly, seeks to provide, *inter alia*, for—

- (i) making human trafficking a punishable offence;
- (ii) setting up of an Overseas Indians Welfare Fund; and
- (iii) compulsory registration of recruitment agencies, etc. and to provide for punishment to those agencies who carry out the business of recruiting persons for overseas employment without registration.

Clause 6 provides that the Central Government shall credit such sums of money to the Fund as it may think fit for carrying out the purposes of the Bill. The Bill, therefore, if enacted will involve expenditure from the Consolidated Fund of India. It is estimated that an annual recurring expenditure of about rupees one thousand crore is likely to involve from the Consolidated Fund of India.

A non-recurring expenditure of rupees five hundred crore is also likely to be involved.

STATEMENT OF OBJECTS AND REASONS

Even after sixty-four years of Independence, the Union territory of Andaman and Nicobar Islands has not been provided with a democratic set-up with a Legislative Assembly for the governance of the affairs of the Union territory Administration. All powers are vested in the Lieutenant Governor and the bureaucracy continues to reign supreme. In the absence of a Legislative Assembly with devolution of powers, the people of the Islands are not enabled to have a sense of belonging and involvement in the developmental activities of the Islands and do not have a say in the utilisation of the funds provided by the Central Government, in proper perspective.

The type of Pradesh Council provided to the Union territory with members indirectly elected from panchayats and a single municipality with no powers is not at all befitting to a democratic set-up and devolution of powers. However, the functioning of the Pradesh Council since its formation in the year 1981 has set the background for constitution of a Legislative Assembly on the pattern of Puducherry or Delhi. The population of the Union territory has crossed three-lakh mark and the literacy percentage is more than 81 per cent. and heading towards achieving cent per cent. literacy as per norms prescribed by the Government of India.

There have been series of demands from the people of the Union territory for providing a Legislative Assembly at least with limited powers. The Island Development Authority had agreed in principle to constitute a Legislative Assembly for the Islands. The Estimates Committee of the Parliament had also recommended for the constitution of a Legislative Assembly for the Union territory. Now, since a three-tier Panchayati Raj system is also in the offing in pursuance of the Constitution (Seventy-third) Amendment Act with the idea of devolution of powers at panchayat, block and district levels, it is high time that a Legislative Assembly is provided to set the tone and direction for the governance of the Union territory Administration on democratic norms.

The Bill seeks to achieve the aforesaid objectives.

For this purpose, a non-recurring expenditure of about rupees fifty lakhs is likely to be incurred. This expenditure will be met from the Consolidated Fund of India.

The Bill does not involve any other expenditure either of a recurring or non-recurring nature.

MEMORANDUM REGARDING DELEGATED LEGISLATION

Clause 33 of the Bill empowers the Legislative Assembly of the Union territory of Andaman and Nicobar Islands to make rules, subject to the provisions of this Bill, for regulating its procedure and conduct of its business. It also provides that the Lieutenant Governor shall, after consultation with the Speaker of the Legislative Assembly and with the approval of the President make rules for securing the completion of the financial business, regulating the procedure and conduct of business in the Legislative Assembly in relation to any financial matter or to any Bill for appropriation of monies out of the Consolidated Fund of the Union territory of Andaman and Nicobar Islands and for prohibiting the discussion of or asking any question which affect the discharge of the functions of the Lieutenant Governor in so far as he is required to act in his discretion.

Clause 44 of the Bill empowers the President to make rules regarding allocation of business to Ministers and transaction of such business. It further empowers the Lieutenant Governor to make rules prohibiting the manner of authenticating the orders issued in his name.

Clauses 46 (3) and 47(3) of the Bill provide that the Lieutenant Governor may make rules regarding the custody, etc., of the Consolidated Fund of the Union territory of Andaman and Nicobar Islands and the Contingency Fund of the Union territory of Andaman and Nicobar Islands.

Clause 53 of the Bill empowers the President to issue orders for removing any difficulty in giving effect to the provisions of this Bill and in particular in relation to the Constitution of the Legislative Assembly.

The matters mentioned above are of a procedural nature and it is difficult to provide for them in detail in the Bill itself. The delegation of legislative power is, therefore, of a normal character.

T.K. VISWANATHAN,

Secretary-General.
